

ogv sales

learn how to boost your consideration phase 

session objectives.

1

how to understand your market needs and promote gv to youth

2

how to sell caring about conversions and process time

What are buyer personas and why do we need them?

A buyer persona, according to the Buyer Persona Institute, "tells you what prospective customers are thinking and doing as they weigh their options to address a problem that your company resolves."

A detailed buyer persona will help you determine where to focus your time and investments, guide program development, and allow for alignment across the organization. As a result, you will be able to attract the most valuable customers to your entity.

**BUYER PERSONAS MAKE
YOUR WORK EASIER**

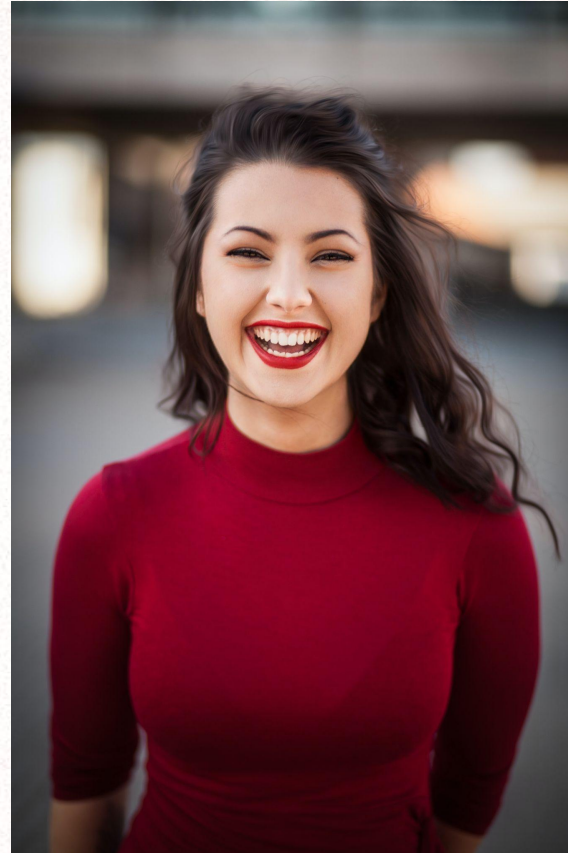

If you are oGV, it looks like this

This is Mary

She is a Business Administration student, she is 21 years old and for her, Gender Equality is very important. She went for a GV already!

In her faculty there are many people with her same profile. Female, between 21 years old, interested in Gender Equality.

If you adapt your attraction for people like her, you can get a better SU to APL conversion!

**How do Buyer
Personas look
like in AIESEC??**

Background

- Meet new people;
- Explore new places and travel.

Common objections

- University timeline;
- Parents will not allow going;
- Lack of information.

defined my personas
now what?

IMPLEMENTING **BUYER PERSONAS** FOR oGV

This is Mary, **she is one of your buyer personas**

She *uses more Instagram than Facebook* and she prefers when someone sells her something *physically than online*. She really *wants to travel the world and improve herself*.

WHAT SHOULD I DO?

Reallocate your investments for Instagram ads instead of facebook

Adapt your structure, now you need more people for physical attraction.

Change your speech according to the motivations *Mary* has.

Plan your content according to the customer flow. What do you need to communicate during attraction to Mary?
How does it changes during consideration?

Remember *Mary* is a **representation of a group of people!**

time to sell 

**use value
propositions in sales
speech**

Global Volunteer for Youth

Develop your leadership through a volunteering project contributing to the Sustainable Development Goals.

Value Proposition

Cross-Cultural Experience

Experience a new culture, meet like-minded people, and expand your network across the world while volunteering.

Develop Yourself

Step out of your comfort zone and live in a challenging environment which will develop your leadership competencies, personal skills and improve your language capabilities.

Contribute to the Sustainable Development Goals

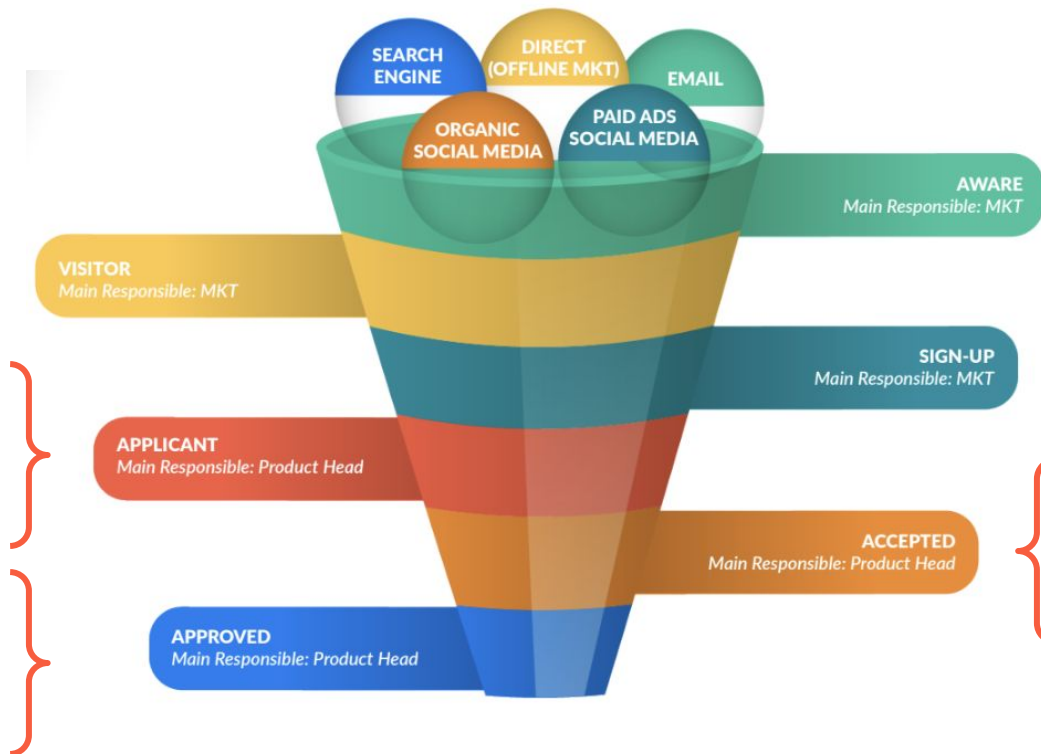

Find the project around the world that contributes to a cause you care about. All Global Volunteer projects are designed to contribute to the Sustainable Development Goals.

**reach your leads in
less than 24hrs**

**track your sales
funnel**

track the applicants on EXPA:

- 💡 see if they applied to focus IR

track the approved on EXPA:

- 💡 see if the process time is equivalent to what you have aligned
- 💡 evaluate each EPs funnel journey and come up with learnings to develop the conversions

track the accepted on EXPA:

- 💡 see if they are ready to be approved in short span of time
- 💡 see why rejected are rejected

**develop your sales
speech based on
customer feedback**

1. take records of reasons of rejections

2. A/B test your cold calls

3. create negotiation flows to each questions you get from EPs

4. Brainstorm other ways to develop sales speech

last tips & tricks

1

Funnel Analytics on EXPA

You can simply use funnel analytics on EXPA to track the performance of your conversions and the process times at a glance. Through this view

2

Conversions

For the detailed conversions ratios in each stage you can use the conversions section and it shows how have the nurturing happened throughout the process. Using these numbers you can trace where are the problems/ issues in the process and why. Then you can change the approach and strategies in these stages.

3

Process Time

For the detailed process times in each stage you can use the process time section and it shows how have the time spent throughout the process. Using these numbers you can trace where are the problems/ issues in the process and why. Then you can change the approach and strategies in these stages.
