

THE BLUE CODE

A GUIDE FOR **TEAM LEADERS**

THE BLUE CODE

everything team leaders need to know, to deliver standards for an excellent membership experience , enable the understanding and living of aiesec values and facilitate inner and outer journey towards achieving aiesec 2025.

THE MX STANDARDS: HOW TO

- *short term standards (3 months)*
- *medium term standards (6 months)*
- *long term standards (12 months)*

THE TEAM LEADER CALENDAR

- *routine with mx standards*
- *mx funnels alignment*

introduction

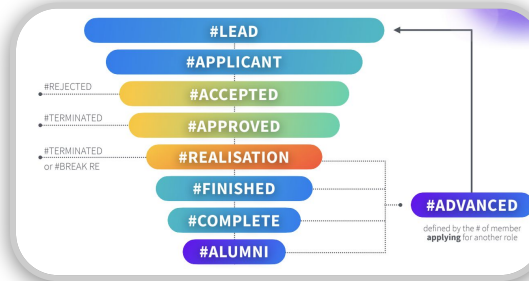

The AIESEC Member program is an informal education for young people, that focuses on leadership development at the core. Unlike other training courses, university clubs or youth organizations, our product develops young people by delivering a personalized, relevant and measurable leadership development experience, connecting them to a global network of youth and partner organizations.

	Reason to Apply	Reason to Engage	Reason to Advance
A Personal Development	Seeking for personal development: interpersonal skill, practical learnings outside university	Being delivered relevant training, learnings. Can see measurable development through performance	Wishing to diversify skill/learnings through diversified experience
B Leadership Experience	Understand importance of leadership. Seeking for developing competencies & values of leadership	Experience is personalized to tackle in developing specific LDS competencies. Can see measurable growth in LDS	Wishing to develop leadership in more challenging experiences; Applying for higher roles
C Global Network	Seeking for expanding their network in a global org. for cross-cultural learning and development	Can experience different roles in global network and can see development through cross-org. learnings	Wishing to diversify learnings and connection through experience in other entities, global projects
D AIESEC Impact	Feel connected with AIESEC impact through Enk, ELD. Seeking for org. to contribute more for the org	Can see the indirect impact of their contribution to org & the society. Feel engaged with products of AIESEC	Wishing to contribute more to org through different products in other entity or contribute in a higher roles

AIESEC MEMBER direct impact ROTI

The business model is designed on direct and indirect impact MoS. To ensure we achieve our MoS, the members go through the funnel and experience standards.

Global Persona

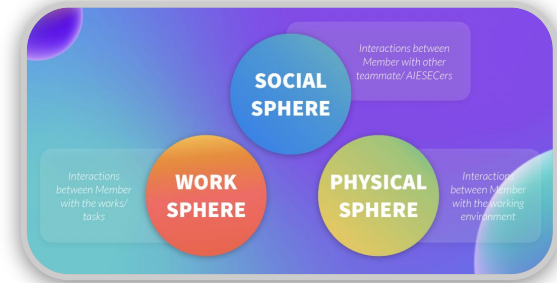

Member Personas are the link between the needs of the youth and what is the value and the unique selling proposition of AIESEC that can help them by becoming a member.

MX Funnel

MX funnel is the journey map of a member in a form of different stages that they go through in their experience. To excel experience in every funnel, we deliver certain standards in that funnel.

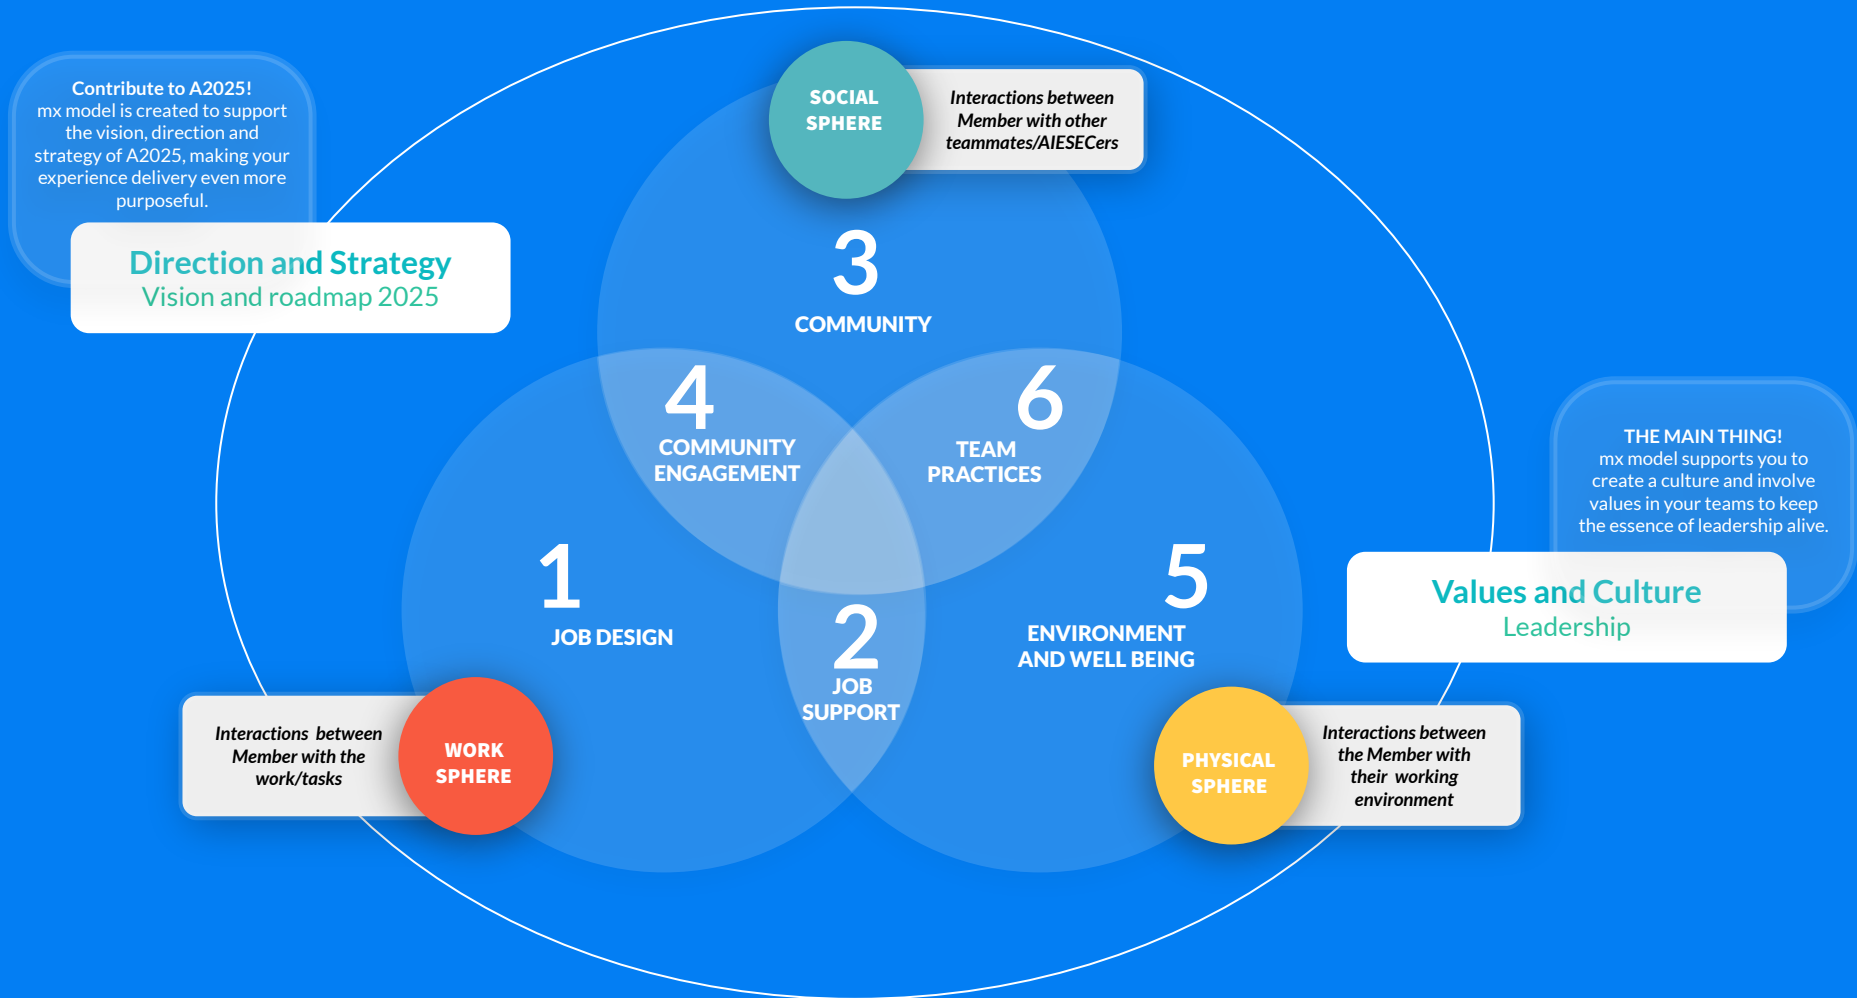

MX Spheres

The standards are based on the three spheres that any person, member or employee of any organisation should cover to gain a wholesome experience.

MX Spheres

mx spheres

MX standards is built to facilitate **Inner & Outer journey** of member - make leadership development happen; What are the benefits, support that could facilitate their experience

Impact

This enables young people to see their connection with the world and take ownership and responsibility for their actions and impact.

Individual responsibility

Taking individual responsibility with clear goals is a first step in the outer journey of leadership development.

Challenging role and environment

Your role and surrounding environment push you to leave your comfort zone, enabling you to learn.

Interaction with multiple stakeholders

The diversity and quantity of stakeholders to which an individual is accountable heavily influences one's leadership development. For example, interaction with diverse cultures or different types of stakeholders (boss-customer-colleague, AIESEC-company-NGO, etc.)

Support system

In the outer journey there should be some support system for the inner journey. It can be a mentor, coach, buddy, etc. A support system can be provided by AIESEC or any other external stakeholder.

Set personal goals

The inner leadership journey starts with understanding where you are currently and with setting goals for what you want to gain from the experience.

Reflect on your experience

Going through self reflection exercises to understand how you are achieving personal goals, changing throughout the experience, and capture your learnings and realisations.

Understand your personal values

By living the experience and going through inner journey you realise the fundamental things about yourself – your values and how they impact your everyday life.

Reinvent yourself

Capturing the learning from this experience to use it in the future: Understanding your new self.

LEAD

LEAD works as a catalyst in the form of spaces that we provide to our programs' participants to facilitate their Inner Journey, and thus ensure they are developing the leadership qualities from our model. To do so, the LEAD Content and Learning Environments are used as tools for hosting, in accordance to the objectives and audience.

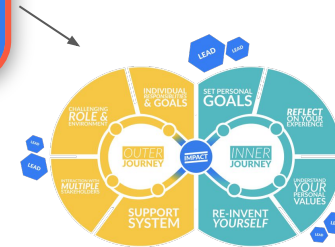

A young person joins the AIESEC Member Program.

MX FUNNEL
They go through the MX funnel.

MX STANDARDS
They experience standards during their journey

They receive the LEAD content and experience the inner and outer journey.

As a result they are given the opportunity to live the AIESEC values daily, both in their AIESEC experience and personal lives.

COMPETENCE MODEL
aiesec.org/membercompetencymodel

new mx standards

JOB DESIGN

Connecting the individual and organisational goal by taking ownership of the work we do.

COMMUNITY

Networking with different group of people and communities that would leverage the relationships of the member, influencing the work culture and the effectiveness of performance through forums, activities, rules and policies.

ENVIRONMENT AND WELL BEING

Environment and well beings of member play as important factor on productivity of the team and individual

JOB SUPPORT

Understanding and providing the important information, knowledge and skill-set needed for the work through alignment across different positions and contracting [optional]

COMMUNITY ENGAGEMENT

Understanding different community channels through which members can interact and engage with different groups of people and communities

TEAM PRACTICES

Empowering and connecting the team members with each other as well as the organisation by facilitating the leadership development for each member.

1

JOB DESIGN

- Define how the task could fit with individual goal and organisation goal
- See their influence on completion of the task
- Take ownership for important decision in the work

1.1 JOB DESCRIPTION

- ✓ JDs are designed based on persona of member; it could fit with personal strengths, personality, team roles, motivations
- ✓ JDs are designed to fit with individual goal & organisational goal; allow member to connect with organisation for a bigger purpose
- ✓ JDs state clearly the commitment needed and the routine required
- ✓ JDs have clarity in personal the MoS & KPIs and the individual accountability systems are set accordingly

Set common goals with the member that aligns to the KPI and MoS of the role.

1.2 PERSONAL DEVELOPMENT EVALUATION

- ✓ The Personal Development Evaluation is to be delivered through the whole journey (Approved - Realised - Completed); allows member to see consistent development through the journey
- ✓ PDPs is evaluated in qualitative aspects through reflection and introspection. [let's give a sample resource here]
- ✓ The evaluation is built to develop AIESEC Leadership Values and Competencies for member
- ✓ The development path of member is designed based on persona of member: improvement points, frustrations, motivations,... and what are the activities to support these development
- ✓ The development goals are clear with defined metrics and activities along with supporting materials and tools.

Manage time better by sharing all the tools and resources that members have to fill prior to the meeting or the space.

2

JOB SUPPORT

- The access to relevant knowledge and skill set before starting the work
- Understand the important information about organisation and the Position
- Meet the alignment in job support and contracting (in some case)

2.1 TRANSITION DELIVERY

- ✓ Transition touchpoints take place on time with current and selected members; shadowing is a recommended touchpoint in transitions
- ✓ Member has access to previous teams' report, materials and tools of the role
- ✓ Member is onboarded with key information, knowledge and practical tasks about the role
- ✓ Member understands the context of past performance and what are the gaps that can be improved in the next term

Be sure that the team knows how each member can contribute to transition spaces. It's a team transition, so it should not be only led by the team leader.

2.2 ONBOARDING DELIVERY

- ✓ Onboarding plan, timeline and agenda is in place and covers all aspects of individual and team onboarding.
- ✓ Member receives onboarding about AIESEC, organisational vision, culture & direction; allows the member to align personal values with organisational values and feel connected to it.
- ✓ Member receives onboarding about the responsibilities and benefits of the role; allow them to align personal commitment and motivation with the role
- ✓ Member has the first touchpoint with local community and team engagement

Create and share a 15 day onboarding timeline for your members that covers O2Os, team building, department onboarding and progress checks.

2.3 EDUCATION CYCLE DELIVERY

- ✓ The Education Cycle is delivered through the whole journey (Approved - Realised - Completed); allows member to gain relevant knowledge and skillset
- ✓ Access to Global - Local Resource Hub is given to member; allow them to learn and relearn the knowledge at any time during the journey
- ✓ The evaluation of Education Cycle are takes place after every touchpoint to measure the effectiveness

Create a resource hub where they can get access to all the required educational materials of Local, National and Global level.

COMMUNITY

- The relationship we create and sustain could influence member's individual performance effectiveness, working culture and their perspective about the organisation as a whole
- The social networking space with different group of people & community rules would leverage these relationships of member within organisation

3.1 SOCIAL NETWORKING

- ✓ Member is inducted to the social networking spaces with different group of people in the organisation:
 - (i) Internal: LC - MC - Regional network - Global network
 - (ii) External: Alumni network, BD partner in local & global
- ✓ Member understand what are the community activities of these group of people, the diversified yet united culture of these group;
- ✓ Member understand the impact of social network could facilitate their cross-culture understanding , cross-organisational learning and boosting individual satisfaction

Facilitate as many networking spaces for the members and leverage that to further promote the member journey and impact on the membership.

3.2 COMMUNITY RULES

- ✓ Community rules are different amongst entities, region; but at the same time align with organisational culture, behaviour, ethical code as a whole.
- ✓ Members understand the community rules including: community behaviour, culture, ethical code, what is allowed to communicate/not communicate about AIESEC.
- ✓ Having a set of rules should be applied towards people to protect the community behaviour

Ensure that there is documentation & downscaling of Rules and Regulations, Processes and these documents are maintained in the hubs or somewhere it can be easily accessed.

COMMUNITY ENGAGEMENT

• Community Engagement is about “What are the channel” & “What are the campaigns” to allow member engage with different community

• Member understand how could they engage with these group of people through these community channel

4.1 COMMUNITY CHANNEL

- ✓ Community channels are being set in place, including channel to communicate about work related topics, direction downscale information and communicate about important community announcement;
- ✓ Member is inducted to these channels, has accounts set up (EXPA, Slack,...) and understands how it works
- ✓ Member understand how could they engage with these group of communities through channels.
- ✓ Member is encouraged to share their opinions, story and speak up inside the community

Members being our biggest stakeholders here, should have the right to use these community channels with proper understanding of the internal policies of the entity.

4.2 COMMUNITY ENGAGEMENT ACTIVITIES

- ✓ TM, TL & EB together build the activities for community engagement; in order to build relationships with members and encourage them to engage with other stakeholder in the network
- ✓ Community engagement activities could be varied in different way, depending on what are the stakeholders you want members to engage with, such as: Reward and Recognition campaign, Local conference, Connection with Alumni campaign and so on.

Maintain an alumni database to collect useful information about our alumni and update it regularly so that you know about the services that can be provided through standards.

ENVIRONMENT & WELL BEING

- Environment and well beings of member play as important factor on productivity of the team and individual

5.1 WORKSPACE

- ✓ Define with members the workspace that would be used and ask for what are their requirements that could support their experience the best
- ✓ Informing members about virtual/ physical equipments could be provided (or could not) to accommodate flexible work teams and individual efficiency:
 - (i) Physical: furniture, work desk, meeting room, team house and so on
 - (ii) Virtual: virtual conference platform (zoom, meet), virtual team brainstorming (Miro, Padlet,...)
- ✓ Consistently measure how workspace is contributing to team and individual efficiency

Having work routines and providing requirements that would facilitate the members to work in the best way possible

5.2 MENTAL HEALTH AND WELL BEING

- ✓ Ask members about the kind of support they will need in terms of mental health and well being that could support their experience the best; together define the support for their mental health and well-being
- ✓ Informing member about supporting activities could be provided (or could not) for their both mental health and well beings;
- ✓ The activities could be varied in different context, such as provide coaching/mentor for mental health, deliver therapy to support well being,...
- ✓ Review on monthly basis how healthy (mentally and physically) members are feeling

Define a climate in the entity which represents a safe space for mental well-being, where members can openly address the issues they are facing. To establish this, understand through surveys, O2Os etc.

TEAM PRACTICES

• Team practices are important part of member experience. The connection with teammates and empowering from team leaders could facilitate the leadership development of member

6.1 TEAM BUILDING

✓ Building the team by connecting the team goal with individual goal and set a plan to implement the strategy; allow members to understand the common goal and feel connected, committed with the team purpose. Team building could include defining :

- Team plan: Team goal, values, rules, team behaviours, team name team strategies, team development plan
- Team resource: **team budget**, timeline, productivity
- Team implementation plan: team routine, team accountability system, performance support

*Make an agenda for all spaces and share it at least 24h before.
If relevant, ask members in advance to send information or ask questions.*

6.2 TEAM ENGAGEMENT

✓ Conduct engagement space within the team in order to boost the connection amongst teammate, building supportive relationships amongst teammate and enhance learning experience of member in the team. Team engagement could include:

- Team space: team days, team bond - Team working hours - Team learning circles
- Team coaching: O2O and within teammate and so on

Have some fun spaces or a playlist for the meeting, so there is no need to be silent when waiting for the next space; use breakout rooms to facilitate engagement.

6.3 TEAM PERFORMANCE

✓ Conducting team performance could allow members understand their contribution in the work and reflect individual efficiency. Team performance could include:

- Implementation of feedback system - Results evaluation - Performance monitoring - Achievement tracking, Reviews, reports and and so on

For reviews make sure that the template is available 1 week in advance and ensure it's fully updated no later than 6h before the call;

TEAM PRACTICES

• Team practices are important part of member experience. The connection with teammates and empowering from team leaders could facilitate the leadership development of member

6.4 TEAM DEVELOPMENT

- ✓ Conducting team development could leverage learning circle within a team, contributing to team performance indirectly and allow member to see their development. Team development could include:
 - Creation of a Team coaching plan of action
 - Creation of individual coaching plan of action targeted to ensure personal and functional development plans are met
 - Suggested activities: simulation spaces, soft skill sessions, lead sessions, open forum feedback spaces and so on

Facilitate the 70-20-10: 70% of practical experience, 20% peer to peer learning and 10% of formal education to ensure a complete learning and development environment.

6.5 TEAM CLOSING

- ✓ Conduct team closing to debrief the achievement as a team, reinforce the team engagement and reflect development of team and individual through the experience. The Team closing could include:
 - Implementation of Team Debriefing (Reporting on Results, Team Development Review, Feedback of entire MXP),
 - Transition documentation (Knowledge & Skill Transition, Documents & Tool Transition, Suggestion for Next Steps & way Forward)
 - Individual Debrief (Final LDA, Personal Development Plan Review) and so on

For transitions and Team debriefs, Be sure that the team will know how each can contribute to the space. It's a team transition, so that it's not just the team leaders' responsibility to talk and be responsible for the moment.

MX STANDARDS **TIMELINE**

BASED ON 3 EXPERIENCE PACKAGES

short term experiences

3-4 months | add-on experience | oc/cc/project based/

Diverse and dynamic experience based on fast paced learning and skill development

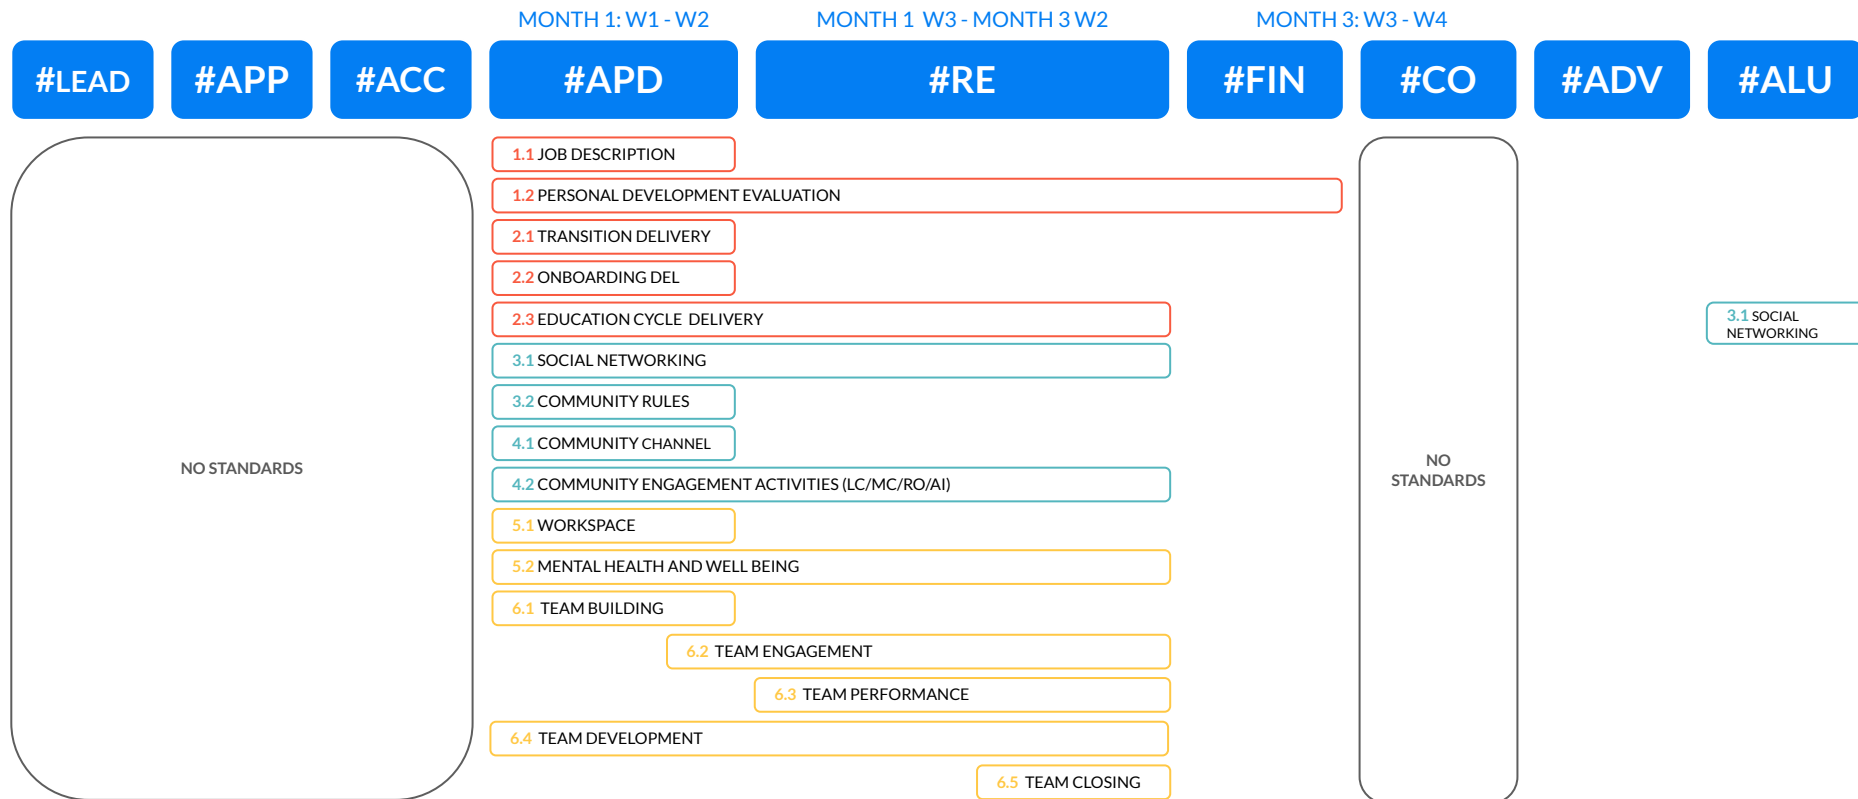

TIMELINE

- ✓ Approval phase for short term roles can be around 2 weeks from the starting of the team experience.
- ✓ Realisation phase starts post onboarding, and can be from week 2 of the 1st month and can last till the week 3 of the 3rd or 4th month (depending on the duration of the short term role).
- ✓ Finish to Complete phase can be the last two weeks of the duration of the term.

Based on this, a sample timeline will look like this:

The scope of standards delivered in short term experience will be limited due to the duration of the package. All standards are supposed to be delivered, if not in the fullest capacity, in the minimum scope. For example:

1. Delivering education cycle only for the specific knowledge associated to the role.
2. Community rules followed only for the concerned areas in the local or national level, or adherence to the national/global compendium etc.

medium term experiences

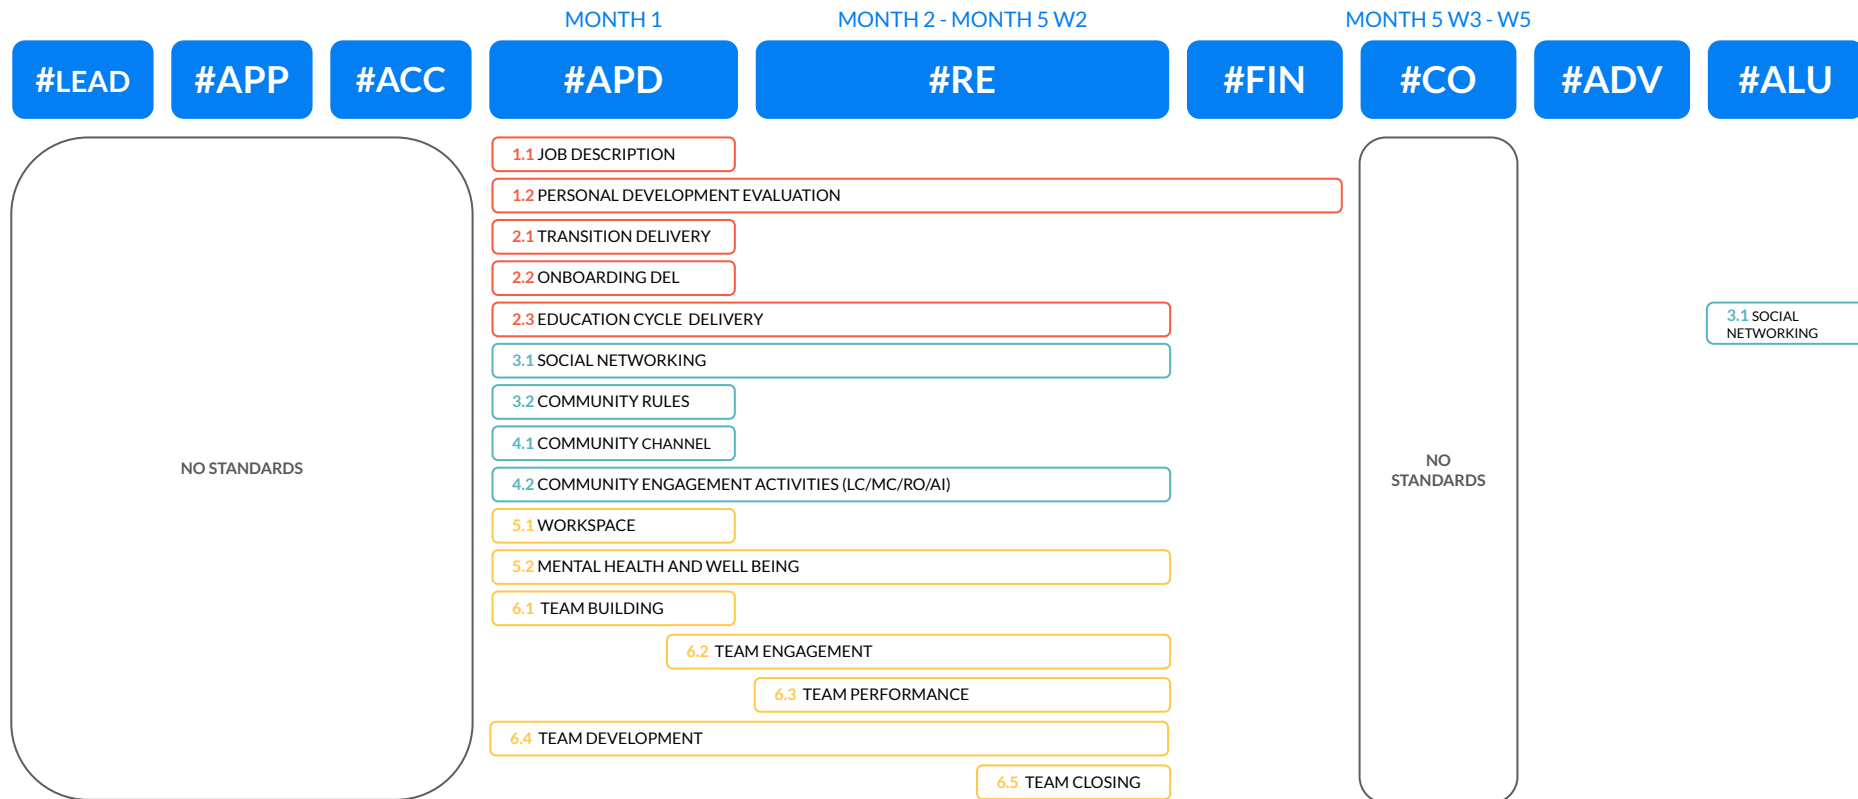

6 months | key essential experience | team member/team leader/nst/gst/est/ceeder/

Intense and challenging leadership and skill development experience to facilitate a learning cycle in function and project management

TIMELINE

- ✓ Approval phase for medium term roles can be around 1 month from the starting of the team experience.
- ✓ Realisation phase starts post onboarding, and can be from 2nd month and can last till week 2 of the 5th month.
- ✓ Finish to Complete phase can be the last three weeks of the duration of the term.

Based on this, a sample timeline will look like this:

long term experiences

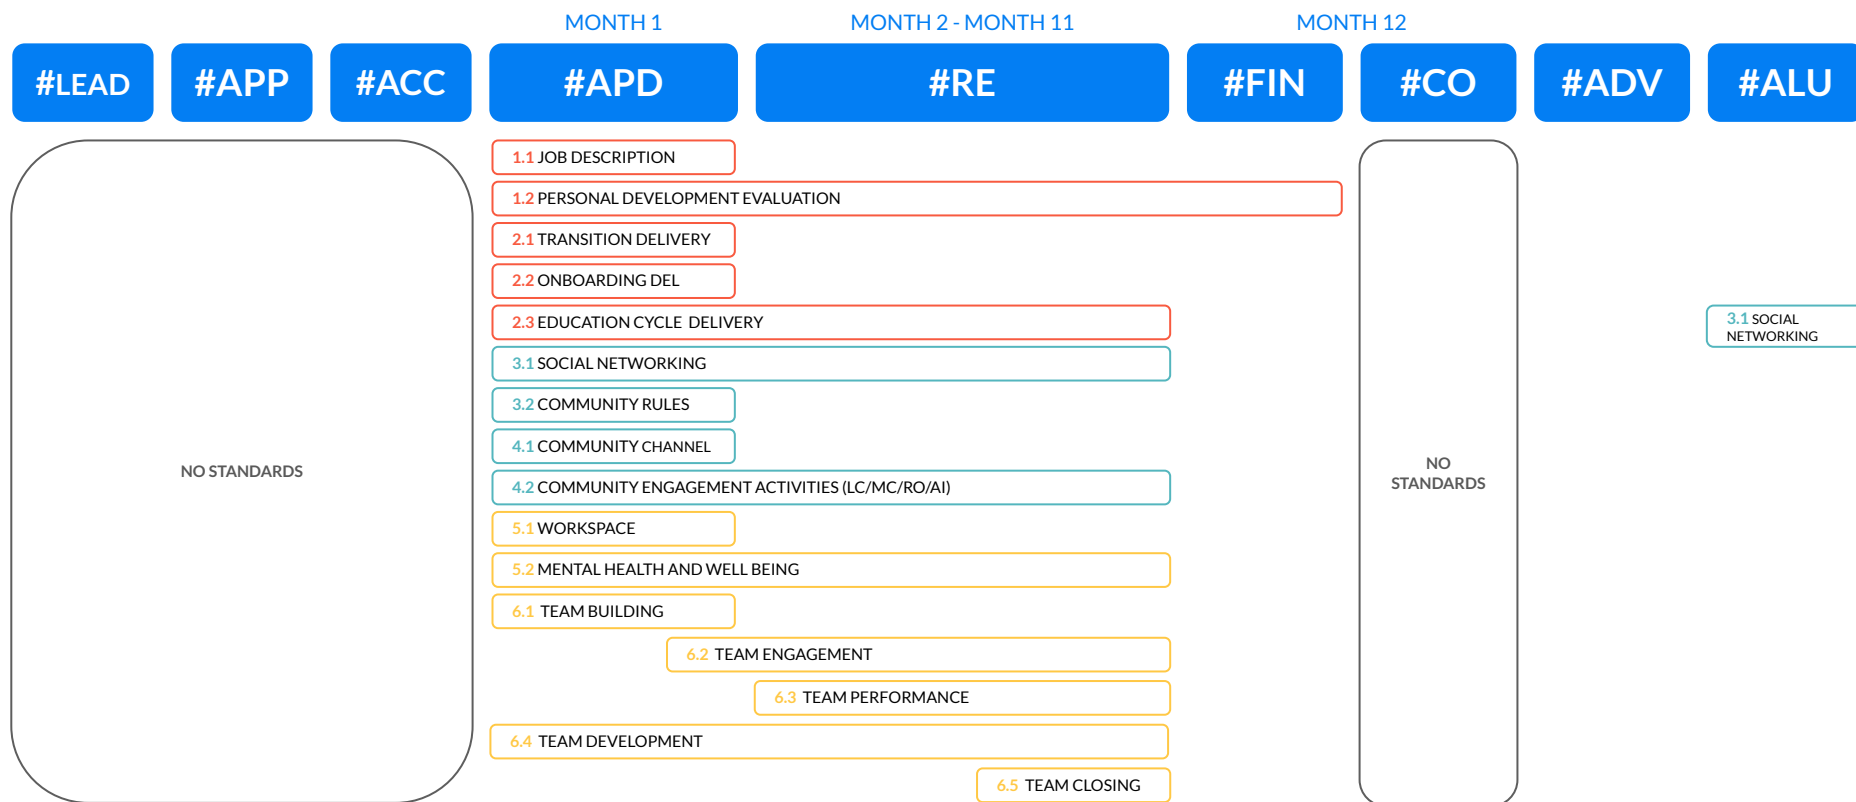

12 months | advanced experience | executive board: LC/MC/RO/AI/

Challenging environment at a higher level leadership development in a strategic role

TIMELINE

- ✓ Approval phase for long term roles can be around 1 month from the starting of the team experience, additionally can also be before the term starts.
- ✓ Realisation phase starts post onboarding, and can be from 2nd month and can last till week 2 of the 11th month.
- ✓ Finish to Complete phase can be the last three weeks of the duration of the term.

Based on this, a sample timeline will look like this:
